VALUES OF CAMPUS LIFE

In nature, flowers and butterflies have a unique similarity. They have a pretty limited life but during those wonderful flitting moments, they deliver us a basket full of delight in its purest form.

In our academic life also we again have a similar experience. To pursue higher learning, we come to our campus for a limited period of time. May be for 2 years, 3 years or 4 years at max. But in our long long active service life, when we look back, the call of the green campus lures us again and again. The pride and warmth of independent living, away from home, robust friendships, tall green trees with splendid yellow and red flowers, huge collective bursts of energy in campus verdures and to cap these all, the warmth of loving young and not so young faculty members and all other supporting members of staff keep our entire rest of life illuminated.

Come! “Join and grow with us in the simply unparalleled attractive campuses of Dr. B.C. Roy Group of Institutions, Durgapur” and make it a true partner of your entire life.
